Qualification Summary

- Flexible with web development technologies like MongoDB, Express.js, React.js, and Node.js,
- Familiar with web design from scratch, database management, and reusable coding,
- Ability to meet deadlines; creative productivity; cognitive flexibility; coordination work,
- Capable of scheduling a workforce roster, producing accurate reports, and managing people.

Technical Skills

Front end : HTML5, CCS3, Frameworks (Tailwind CSS and Bootstrap 5), JavaScript (ES6), React.js, React Router, React Stripe.js, React Hook Form, Toast, React Query, Swiper.js, Firebase authentication, etc.

Backend : Express.js, MongoDB, Rest API, Vercel, JSON Web Token, dotenv, etc.

Tools : VS Code, GitHub, Netlify, Chrome DevTools, Figma, Google Fonts etc.

Project Experience

1. Time Craft

[Website](#) | [Client Side](#) | [Sever Side](#)

*SPA - Web Application written with **MongoDB, Express.js, ReactJS, Node.js and TailwindCSS (responsive).***

- This reseller website has features like an admin user, a seller user, and a buyer user. On this site, a user can book a product, which will then go in his booked product list, and he can pay for the booked order via Stripe.js. Users has their separate dashboard types depending on their role.
- A seller can see which product has been sold and can advertise the product using their dashboard.
- An admin can delete a seller, buyer, or reported product, as well as make another buyer an admin.
- For security, I have used JWT on the backend; APIs are not visible without proper authentication.
- **Tech inside:** Firebase Auth, React hook form, hot toast, Lottifiles Animation, DaisyUI Luxury Theme, etc.

2. NexaForest

[Website](#) | [Client Side](#) | [Sever Side](#)

*SPA - Web Application written with **ReactJS, TailwindCSS (responsive), and MongoDB.***

- This service provider website allows users to select tree-related services. This website also has an open path for adding a relevant service upon user login. A user can also provide feedback on a service page. After logging in, user-provided reviews appear in my reviews route.
- **Tech inside** : Dark Mode, Firebase Auth, Swiper.js, Lottifiles Animation, Toast, JWT etc.

3. Code Atoms

[Website](#) | [Client Side](#) | [Sever Side](#)

*SPA - Web Application written with **ReactJS, TailwindCSS (responsive), and REST API.***

- This is a **Learning Platform Website**, where an user can visit and explore many Online based trainings. **Fully Responsive design build from scratch.**
- I have used **REST API** driven data from **Vercel API**. For design TailwindCSS base MeakiUI components and theme from DaisyUI, npm libraries like – **pdf generator, Toastify** etc has taken part in this web. **Dark Mode** is another feature to explore.

Education

Kabi Nazrul Govt. College, B. Sc. , Mathematics, GPA : 2.90 (out of 4.00)

Dhaka, 2019
